<u>Sprint II Report</u>

Product Name: Algebreezy
Team name: Algebreezy
Sprint Completion Date: 11/07/2015
Revision Number & Revision Date: 1 & 11/07/2015

Actions to stop doing:
- Stop partially completing tasks before taking on new ones.
- Stop meeting at Carl's house.
  - We found meeting in BE302 on campus, where our Scrum board is located, served as a more efficient work space.

Actions to start doing:
- Use the Scrum board better. Scrum check-ins during meetings.
  - The check-in would consist of verbally updating the group on each task in progress. This will help prevent particular tasks from being neglected.
- Scrum checklist. How are we doing on each task?
  - This would be the tool used for the Scrum check-ins discussed previously.

Actions to continue doing:
- Pair programming.
- Meeting in BE302.
- Long weekend meetings.
- Programming after meetings.

Work completed/not completed:
- Did not complete manipulations on the tree, but are at a good position to get that done soon.
- Navigation bar completed.
- A great amount of UI design completed. We now have a functioning web application and are ready to begin implementing equation/tree view manipulations.

Work completion rate:
- 6 user stories completed
